### Job Summary

Vacancy : 4
Deadline : Jan 31, 2023
Published : Jan 27, 2023
Employment Status : Full Time
Experience : 1 - <3 Years
Salary : $10000
Gender : Any
Career Level : Mid Level
Qualification : Hight school or higher

### Job Description

A fitter is a skilled tradesperson who assembles, installs, and maintains machinery, equipment, and structures. Their job duties may include reading and interpreting blueprints and schematics, measuring and cutting materials, aligning and fitting parts, and using hand and power tools. They may also be responsible for troubleshooting and repairing equipment, as well as performing regular maintenance. The specific duties of a fitter will depend on the type of industry they work in, but they typically require a combination of mechanical aptitude and manual dexterity.

### Education & Experience

Having a maritime education, like marine engineering, naval architecture, and shipbuilding technology, can be an advantage for a fitter in shipbuilding industry.

### Must Have

It's also important to note that the welding, blue print reading, basic math, and safety training are essential skills and knowledge that are commonly required for a fitter in shipbuilding or ship repair industry.

### Educational Requirements

Hight school or higher

### Compensation & Other Benefits

Life Insurance
